

WEBINAR

Caring for God's Creation through Climate Action

We invite you to join us Wednesday, October 9, 2013

at 12:00 PM ET for an exciting discussion.

REGISTER

The Southern Alliance for Clean Energy (SACE) is pleased to announce that [Southeast Coastal Climate Network's \(SECCN\)](#) webinar series will continue with a presentation on faith-based climate action in the Southeast. These webinars are your opportunity to learn about climate and energy issues that SECCN engages in everyday.

Studies are confirming that man-made pollution fuels global warming and costly, even deadly, extreme weather events and flooding; and triggers a cascade of human health impacts such as asthma attacks, heat-related deaths and respiratory complications.

Some faith communities are demonstrating admirable leadership in heeding God's call to care for creation, particularly those most impacted by climate change. Join this webinar to hear from faith leaders in Georgia (Rev. Alexis Chase), South Carolina (Rev. Michael McClain), and North Carolina (Penny Hooper) and learn about innovative programs that enable individuals and congregations to care for creation through clean energy climate actions.

To register, please [visit our webinar sign-up page](#), and don't forget to mark **Wednesday, October 9, 2013, 12:00 p.m. ET** on your calendar!

Title: Caring for God's Creation through Climate Action

Date: Wednesday, October 9, 2013

Time: 12:00 p.m.

System Requirements

PC-based attendees

Required: Windows® 2000, XP Home, XP Pro, 2003 Server, Vista

Macintosh®-based attendees

Required: Mac OS® X 10.3.9 (Panther®) or newer

Space is limited.
